

The Communication and Interaction Team is now called the **Education and Inclusion Therapy Service**. They have been supporting **Special Schools** by working in classes and across the school.

Right now, the Local Authority is **focusing on** seeing children in special schools who have **Speech and Language Therapy** written in their **Education, Health, and Care Plans (EHCPs)**.

This is because there are **more children** needing **Speech and Language Therapy** in Hampshire. More children have **special educational needs (SEN) and EHCPs** now.

The Local Authority is looking at the Therapy Service for all schools in Hampshire. They will keep **parents and carers updated about any changes**.
